Support the call of Painters Local 10 for a working class party!

Petition summary and background	On August 17, Painters Union (IUPAT) Local 10 in Portland, OR, passed a resolution calling for the building of a "class struggle workers party". This call is especially important today, when the corporate mouthpiece Hillary Clinton, and the racist demagogue Donald Trump are presented as the only viable options for president. No matter which of these is elected, workers and youth will need to fight the coming attacks. To do this, we will need a political party of working class people, one which will unite, organize and mobilize all working class people to fight for our interests. That's why we should help spread the word of this call of Local 10 and take the first concrete steps in that direction. Please sign and help pass around this message of support, which will be sent to Local 10.
Action petitioned for	**I, the undersigned, support the call by the IUPAT local 10 for the formation of a working class party in the united states.**
