

Message to Amazon Workers: Unionize!

A Campaign Statement from John Reimann for
Oakland Mayor

Nobody knows better than you do how badly a union is needed at Amazon. While we hear that many workers aren't even given time to go pee, Jeff Bezos wallows in nearly \$152 billion.

But it's not only Amazon workers. Pay has not kept

pace with rents for everybody, and working conditions are going down the toilet.

The victory of the Amazon Labor Union shows what we workers can do. You don't have to wait for a union organizer to organize you; you can choose your own leaders from your own ranks and organize yourselves!

I am the working class and socialist candidate for mayor of Oakland. As a member of the Carpenters Union, I always fought for the idea that the unions must really fight for their members and for all workers. You can make that reality. You can change not only your life, but the lives of all workers.

My election campaign is not about "vote for me and I'll set you free"; it's to encourage and help workers organize so we can free ourselves. If there is any way my campaign and I personally can help you organize, please contact me. It doesn't matter if you live in Oakland or not. This is not to get your vote; it's to help all workers organize.
